<small>DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE</small>	
<p>This house is located on the north side of old Route 64 in Chewsville, Maryland. It is situated on level ground along Main Street and faces south.</p> <p>The structure is a two story, five bay brick dwelling resting on low stone foundations. The brick walls are laid in flemish bond at the first story of the front elevation, while the upper story of the facade and other elevations display common bonding. Flat arches are present over the openings.</p> <p>Windows appear to be spaced evenly in the front elevation, where two over two pane, double hung sashes are held within narrow frames.</p> <p>The main entrance is located in the center bay of the front elevation. The entrance way is plain in appearance with framing similar to that of the windows. A narrow transom is present over the door.</p> <p>A new porch, one story in height, extends along the front elevation.</p> <p>The roof extends beyond the end walls and is covered with slate. The eaves are finished with a narrow band of cornice molding.</p> <p>The house is in good condition and is located on a tract containing one acre.</p>

STATEMENT OF SIGNIFICANCE

The area of importance of this house is its architecture. Constructed of brick over the five bay, center door plan, it is representative of a significant number of houses in Washington County.

Aspects of its construction, including the use of flemish bonding restricted to the first story level and the window and door framing, suggest a possible building date during the mid-nineteenth century.
