DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This house is located on the south side of Main Street, old Route 64 in Chewsville, Md. It is situated on a low bank above the roadbed toward the west end of town and faces north.

The structure is a two-bay, one-and-a-half story brick dwelling, painted red with white trim. An el extends to the rear or south.

The walls are set on low fieldstone foundations. Bricks are arranged in all stretcher bond with flat arches present over the first story windows. The present surface could be brick veneer over earlier log construction.

Windows display narrow framing and contain two-over-two pane Victorian period sashes. Wider horizontal sash windows are present at the upper story. The main entrance is located in the west bay of the front elevation. It is simple in appearance and does not include a transom.

The roof is covered with sheet metal and extends beyond the end walls of the house. An exterior end chimney of brick is located at the west elevation. Other brick flues are located inside the gable end.

Small, one bay entrance porches are located at the north and west elevations. They are supported by chamfered square posts.

The house is in good condition and is located on a lot 110' X 147'.

<input type="checkbox"/> Conservation	<input type="checkbox"/> Music	<input type="checkbox"/> Transportation	_____
STATEMENT OF SIGNIFICANCE			
<p>The area of significance of this house is its architecture. It is representative of 19th century vernacular buildings, appearing essentially functional with little stylistic concern. Small structures of this type are present in significant numbers in Washington County.</p>
