private x, public    

Approximate date C. 1900

Description:

This late Queen Anne style house is distinguished by the semi-hexagonal corner tower with its polygonal top and a steeply pitched cross gable. The house is a two story, four bay L-shaped structure with all stretcher bricks used at the front elevation and common bonding used elsewhere. Windows in the brick section have arched heads, most of them segmental. The second floor eastern three windows are fully round-arched. All windows have single pane sash. The main entrance is in the second bay from the west end of the house. A one story porch supported by round columns on square bases extends across the front.

In 1877 this was the property of D.W. McCoy and it held the post office. The current building postdates whatever was there in 1877.
