DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house presumably of log construction is sheathed with German siding. It appears to have received a new roof. The house is a long, narrow two story four bay structure with nine over six windows at the first story level and six over six windows at the second story. The exterior surface of the building except for the window sashes shows work associated with the late 19th or early 20th century. An exterior chimney of brick is located against the north end wall. Also present is a large frame bank barn with a fieldstone fence in front of it.

STATEMENT OF SIGNIFICANCE

This house apparently built of logs cannot be dated without further study. Along the Antietam Creek it is adjacent to the site of the Civil War Battle of Antietam. The exterior chimney and the nine over six pane windows suggest that the house may have been standing for some time before the Civil War.
