DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This complex consists of an unusual two story, six bay brick house, a brick barn dated 1831, and various stone and frame outbuildings. The house is constructed in common bond at all elevations and apparently had a double porch along the entire front elevation. It now has two story early 20th century doric columns. The main story consists of two rooms flanking a large stair hall with a spiral staircase. The hallway and each room has a separate entrance in the front elevation. Interior woodwork features some mantelpieces with colonnettes and some with rectangular tablets. Several doors have elbow locks. To the side of the house is a mounting block of three cut limestones. A one and a half story brick wing extends to the rear of the house. The barn is a large brick structure with decorative open work ventilators. A tablet in its east gable indicates that it was build by Daniel Schnebly, July 11, 1831. A long narrow stone outbuilding, now a hog pen is said to have been slave quarters.

---

SPECIFIC DATES      Barn, July 11, 1831    BUILDER/ARCHITECT    Daniel Schnebly

---

## STATEMENT OF SIGNIFICANCE

This complex merits further study. The barn is dated 1831 and the house would appear also to have been built during the second quarter of the 19th century. The house has an irregular exterior appearance which disguises unusual interior refinements. Most outbuildings remain intact.
