Description

This two story, three bay L-shaped bricked house dates from after 1877 (it is not shown on the Atlas map of that year) and is said to date from about 1890. It reportedly was built for Jacob Hoover who operated the mill in town. It has single pane sash windows with louvered shutters beneath wide wood lintels. The first story front windows are grouped with an elliptical transom. The main entrance is located in the north bay of the front elevation. The extension to the rear has a two story porch along its south side. A one story porch extends across the front elevation.
