Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*
 The Park Hall/Locust Grove Rural Historic Landscape is eligible for the National Register of Historic Places under Criterion C, architectural distinction, for its intactness and consistency of agricultural and architectural landscape and form. Of the eleven characteristics that have been developed to identify Rural Historic Landscapes, Park Hall/Locust Grove clearly embodies five: land uses and activities, response to the natural environment, cultural traditions, circulation networks, and buildings, structures, and objects. The landscape is consistently comprised of small-scale agricultural endeavors. In addition, it demonstrates variation of use related to the variation in the landscape, from the dairy farms and smaller plots closer to the base of South Mountain, to the wheat and corn fields further out in the flat lands of the valley. The roads that traverse the district appear to follow their historical routes, illustrating the importance of transportation to the settlement and use of the region. The dwellings and outbuildings display a consistency of form, vernacular style, and period of construction, as well as illustrating the influence of the cultural traditions that the settlers of this area brought with them. Certain aspects of the other six characteristics are also present: patterns of spatial organization, boundary demarcations, vegetation related to land use, clusters, archeological sites, and small-scale elements.

This nineteenth-century two-story log structure sits upon a stone foundation, and is capped by a side-gabled roof sheathed with asphalt shingles. The exterior of the building is clad with Bricktex. The windows have been replaced, and are 1/1
