DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

~~#6~~ 7 This complex is located on the west side of Shankstown Road at the eastern edge of Fort Frederick State Park in Washington County. The group includes a house, barn and related agricultural and domestic outbuildings.

The house is an L - shaped, two story structure which faces south. It is three bays wide at the front elevation, although only two openings are to be seen at the second story level. The structure is sheathed with German siding. Windows have two over two pane double hung sashes. They are trimmed with late 19th century architraves with molded pointed top pieces. Doors have four panels. Along the east elevation of the ell is a two story porch supported by chamfered square posts.

The roof is of standing seam sheet metal and extends beyond the end walls of the house. The front part of the house has a central brick flue and the ell has an inside end brick chimney.

Northeast of the house is a timber frame bank barn which rests on stone foundations. It is said to have been built in 1880.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

#8 This property, known locally as the Shank farm shows characteristics of dating from the late 19th century. The exterior fabric of the house, its German siding, window architraves, chimneys and roof are typical of the 1880's and '90's. The presumed 1880 date of the barn is also appropriate. This farm group is a typical period vernacular complex of the area and therefore has significance for its architecture.
