

ABSTRACT

WA-V-218

MASON-DIXON LINE: MILESTONE NO. 118(122)

1767 (reset 1902)

Indian Springs, Maryland vicinity

Public/private

Milestone No. 118(122) marks Mason and Dixon's 118th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line, longest of the survey lines run and marked during their 1763-68 commission to define the boundary between the English provinces of Maryland and Pennsylvania. It is an original milestone of 1767, in fair condition, unaltered, and stands firmly at its original site, preliminarily surveyed in 1766, monumented the following year, and reset more securely in 1902 at the time of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Originally quarried and carved in England, it ^{presumably was about 12 inches square by about 4 feet or more long,} ~~it~~ ^{cut to stand about 3 feet high with its base left rough-} cut for setting into the ground. The distinguishing decorative features were the vertical fluting with horizontally-fluted margins on all four sides, and the Roman capital letters P to face Pennsylvania on the north side and M to face Maryland on the south side, each V-sunk in a plain shallow circle panel near the top. Reset in 1902 to stand presumably about 1½ feet high, it is now only about 9 inches above ground, badly weathered, with considerable chipping along all edges and top corners. The letters are still visible, but little ^{of the} ~~other~~ embellishments remain. On the national and state levels, No. 118(122) is significant primarily as one of 135 original monuments in the thematic group series of some 248 markers still defining the West Line. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary (10 crownstones; 38 milestones), it is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 118(122) marks Mason and Dixon's 118th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line. It is an original Milestone of 1767, in fair condition, unaltered, and stands about 9 inches above ground at its original site, preliminarily surveyed in 1766, monumented the following year and reset more securely in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary.

The area here is a narrow valley between Cove Mountain on the east and Coon (Kuhn) Ridge on the west, with a few farms scattered along the road and bottomland. The site is within Election District 15 of Washington County, MD, and Warren Township of Franklin County, PA; on the west slope of Cove Mountain; about 5 1/4 miles due north of the settlement of Indian Springs, MD; a little over 4 miles north-northeast of the settlement of Pecktonville, MD; about 4000 feet east of Little Cove Road/LR-28042 at the Line; about 2500 feet northeast of the Rowland farmhouse; in an ^{and scraggly tangle of vines and trees} east-west loose row of stones/ separating the Rowland cultivated field and woods from the Hickory Ridge Hunt Club woods on the south. The site cannot be seen from any road or farm service lane, and is almost impossible to see when closeby because it is surrounded by other stones about the same size. This is protective, but without official marking/^{it} could easily disappear into oblivion.

The milestone, as with all original Mason and Dixon West Line monuments, is an embellished oolitic limestone post, quarried and carved in England, and originally measured about 12 inches square by about 4 feet or more long, cut to stand about 3 feet high with the base left rough-cut for setting into the ground. The distinguishing decorative features are the vertical fluting with horizontally-fluted margins on all four sides, a low pyramidal top with fluted planes; and the Roman capital letters P on the north side facing Pennsylvania and M on the south side facing Maryland, each V-sunk in the center of a plain shallow circle panel. When reset in 1902, the monument presumably stood about 1 1/2 feet high. ^{remains firmly set but} It/now stands only 9 inches above ground; measures about 11 inches on the north and south sides, about 12 inches on the east and west sides; all surfaces are very badly weatherworn; all edges and top corners very chipped; the letters are visible but very little of the fluting and no margins remain; the top is dome-shaped and dappled with lichen.

CONTINUE ON SEPARATE SHEET IF NECESSARY (see Thematic Group NR nomination form for full descriptions of the original Mason and Dixon monuments and the 1900-03 Resurvey method of resetting them)

STATEMENT OF SIGNIFICANCE

Milestone No. 118(122) is significant on the national and state levels primarily as one of 135 original Mason and Dixon monuments in the thematic group series of some 248 markers defining their 230.228-miles West Line, the boundary later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. The site was preliminarily surveyed in 1766, monumented the following year, and reset/in ^{more securely} 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary (10 crownstones; 38 milestones), No. 118(122) is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.
