DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house is located on the south side of East Salisbury Street. It is a brick structure which appears to date from the early 19th century, probably the 1820's. It shows influence of the Federal style. It is a two story six bay structure with a Flemish bond facade. Flat arches are present above the openings. The front wall has been sandblasted. The walls extend above the roof line forming a parapet. Windows have six over six pane sashes with paneled shutters at the first story and louvered above. The main entrance is located in the third bay from the west end. It has a six panel door with a broad transom and sidelights. Another entrance changed to a window is located above it. A pair of gabled dormers extend from the roof. Double chimneys are located inside the end walls.
