DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house, located on the south side of West Church Street is one of a set of four houses which appear nearly identical, and which probably were built at the same time. It is a two story, three bay balloon frame structure having a central cross gable with a small rectangular window. The walls are sheathed with German siding. Windows have single pane sashes with flat topped architraves. The entrance is located in the center bay. Brick chimneys with corbels are located inside the end walls. A porch supported by doric pillars extends across the front. The house would appear to date from the early 20th century.
