Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces southwest onto Maryland Route 765. It has obviously been converted to use as offices, but there is no sign on the exterior. It is a 1920s Colonial Revival dwelling, a full two-story house, but with the upper story accommodated by monitor dormers that make the house appear to be more of a cottage. It is set on a brick foundation, is framed and weatherboarded. The three-bay facade includes a slightly advanced entrance bay which serves the house as a stoop. The placement of the door indicates a side-passage plan. A decorative pediment over the door is visually supported by two attenuated pilasters. The windows are glazed with eight-over-one double-hung sash and are flanked by louvred blinds with new-moon cutouts in them. New additions having to do with the conversion of this house to office space have been made to both gable-end walls. The gable roof is covered with asphalt shingles.
