Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces east and is set back from Maryland Route 765. Set on a decoratively molded concrete-block foundation, this is a two-story rectangular-plan three-bay house. It has a gable roof oriented with its end toward the front. The roof is covered with decoratively molded pressed sheet metal and is interrupted by one slightly off-center brick stove flue. The original sash are two-over-two double-hung. The placement of the main entrance indicates a side-passage plan. The first story of the facade is sheltered by a shed-roofed screened-in porch supported by turned posts and decorated with sawn and pierced brackets. The tympanum of the front facing gable is covered with scalloped shingles. It is pierced by one square window. There is a one-story polygonal bay on the south end of the house. There is also a one-story rear shed. The original siding has been replaced with asbestos shingles.
