Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces west onto Solomons Island Road. The only recognizably old thing about it are the basic form, roof structure, and material. Set on a new brick foundation, it is a two-story square-plan, framed and weatherboarded structure with a wood-shingled pyramidal roof. The two-bay facade consists of an off-center side-lighted doorway and a bank of three windows glazed with six-over-six double-hung sash. There is a dentillated cornice at the eaves, and a shed-roofed front porch supported by attenuated turned posts. Every visible material and detail of this house is new.
