Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This two-story three-bay framed and weatherboarded structure faces southwest onto Patuxent Avenue, overlooking the Patuxent River. It is a single-pile side-passage-parlor house with windows glazed with two-over-two double-hung sash. There is an added exterior concrete-block stove flue. A two-story two-bay extension with a cross-gable roof is a recent addition that makes the house look like a turn-of-the-century T-plan structure. A one-story hipped-roof front porch is supported on new turned posts. The house has an original two-story rear ell and a new one-story hipped shed behind the new cross-gabled extension. The weatherboarding has been replaced with new vinyl siding. The original part of the house was built around the turn of the century.
