Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

CONTRIBUTING RESOURCE COUNT: 1

Standing Wharf Structures: None.

Associated Standing Wharf Structures: None.

Description: Dares Wharf is a historic wharf site with no visible features on land or above mean low water.

Previously Existing Wharf Structures: "Map of Calvert County Showing Topography and Election Districts" 1902 depicts an "L" wharf perpendicular from the shore at the end of an unimproved road. Interestingly, this map also depicts the planned terminus of the Drum Point Railroad which was to be located just west of this landing. "St. Mary's Folio" 1906 depicts a simple short wharf. "Lower Part of the Patuxent River, Maryland" 1907-08 depicts a "T" wharf. "Chart no. 20 Natural Oyster Bars Calvert and St. Mary's Counties, Maryland" 1908 depicts a "T" wharf. "Soil Map of Calvert County" 1928 also depicts a "T" wharf. These maps and charts suggest an "L" wharf was altered into a "T" wharf sometime after 1902. An aerial photograph of the area taken in 1938 shows no wharf structure present.⁵¹

⁵¹ Aerial photograph AHS 10-65, dated 1938, scale 1 inch equals 660 feet, Calvert Soil Conservation District, photostatic copy deposited at Calvert Marine Museum.

8. Significance

check: Applicable Criteria: A B C D
and/or
Applicable Exception: A B C D E F G

Level of Significance: national state local

Prepare both a summary paragraph of significance and a general statement of history and support.

Drum Point Landing was located near the end of River Terrace Drive, off of Barreda Boulevard, just inside Drum Point at the mouth of the Patuxent River. The Drum Point Community Association owns the actual point and has a small pier located near the point. The actual landing however is believed to be further west near the area of River Terrace Drive. Drum Point Landing was not as popular as many of the other Patuxent River landings, and was therefore regarded as a “flag stop.” In 1897 a “signal” was used to summon the steamboats to the landings as was described in the following passage, “The steamer came down the river using her searchlight, and as one passenger was going to Baltimore, she was signaled and made her landing...” A postmaster was present at “Drum Point Landing” in the same year. This landing was referred to as a “wharf” in the Weems Steamboat Company literature of 1896. In the same publication it states the DeBarrill Brothers, managers, offer “A delightful Summer Resort on the Patuxent. Modern Building, Bath-rooms, etc. Salt Water Bathing, Boating, Fishing, Stables, Tennis; Hops weekly; and First-class Accommodation. Open June 15. Rates, \$7.00 per week.” This publication does not mention which specific steamboat landing served this “Mansion House” but on page 5 it refers to the Drum Point wharf.⁵² The “Mansion House” is almost certainly the Frederick L. Barreda House built in the 1870s and reputed to be the first house in Calvert County with indoor plumbing. This house was located just west of the landing. See “Chart no. 20 Natural Oyster Bars Calvert and St. Mary’s Counties, Maryland” 1908.⁵³ In 1907 the wharf generated \$282.36 in local freight, \$12.73 in through freight, and \$80.25 for passengers, for a total revenue of \$375.34.⁵⁴

⁵² Robert Barrie and George Barrie, Jr., *Cruises Mainly in the Bay of the Chesapeake* (Franklin Press, Philadelphia, 1909), p. 36; and *Summer Homes and Historical Points Along the Routes of the Weems Steamboat Company* (1896), pp. 5 and 62.

⁵³ Richard J. Dodds, *Solomons Island & Vicinity: An Illustrated History and Walking Tour* (Solomons Island, Maryland, Calvert Marine Museum, 1995), no page number, site 90. Kenneth Brooks, in “Deep in December it’s nice to remember...” *Chesapeake Bay Magazine*, September 1973, p. 8, relates many tales told by Thomas Ashcom Gourley, who lived at Hallowing Point Farm, mentions coming into Drum Point Wharf in 1904.

⁵⁴ “Maryland Delaware & Virginia Railway Company Annual Report, Statement of Freight and Passenger Revenue by Wharves for the Fiscal Year Ending December 31st, 1907.” Original

Continuation Sheet 8.1 Drum Point Landing

Drum Point Landing is one of twenty historic steamboat wharf/landing sites identified in "Calvert County Steamboat Wharves and Landings: Architectural Level Survey and Inventory." This survey and inventory was completed in 1996 by Eshelman & Associates for the Calvert County Historic District Commission with funding from the Calvert County Board of County Commissioners. The final report includes a context study which places the historic significance of these steamboat wharf and landing sites within the broad pattern of local county history and regional history of the Chesapeake Bay. The study falls within the theme of "Transportation" within the time periods of "Agricultural-Industrial Transition (1815-1870)" and "Industrial/Urban Dominance (1870-1930)." Refer to this study for a general historical review and historical significance of the resources as a whole.
