PARIS SCHOOL

(c. 1900)

Chesapeake Beach Vicinity

Private

This rectangular, single story, wood-framed, side-gabled, clapboarded former one-room school appears to have been converted to a house and is now vacant. Fenestration consists of six over six, double hung windows. The school is locally significant for its role in the education of African American students of northeastern Calvert County during the early twentieth century.

The Paris School is situated at the crest of an overgrown hillside south of Chesapeake Beach Road, the main east-west highway connecting to the bayfront community of Chesapeake Beach. The lot is littered with a variety of construction debris, and a construction trailer is situated in the vicinity of the former schoolhouse. The schoolhouse appears to be vacant. After its use as a schoolhouse ceased, it appears to have been used as a residence.

The building appears to be a rectangular, single-story, wood-framed schoolhouse. Unlike most other former schoolhouses, the present orientation suggests that the main facade was on an eaves side, rather than in the gable end. Because of the thick vegetation surrounding the building, only the north elevation was viewed and photographed. This elevation features a central four-light door, flanked by paired six over six, double-hung windows. The building is raised slightly on concrete corner piers, and its walls are sheathed in German siding. The roof is marked by a boxed cornice, and it is sheathed in asphalt shingles. A brick chimney is visible to the rear of the roof ridge and probably projects from a rear ell.

According to Richlyn Goddard, the Paris School, also known as the Oaks School and the Paris Mission School, was in operation as an African American school from approximately 1900 to 1952. In 1924, it was one of 19 one-room schools for African American children in the county. In the early 1940s, its trustees included David Thomas, Ralph Holland, and John Emerson. During the period from 1925 until its closure, the school had relatively stable enrollment.

In 1952, as part of school consolidation in northern Calvert County, it and several other one-room schools, including Hall's Creek, Chaneyville, and Lowry, were shut down and the students were consolidated at Mount Hope Elementary School, a 13-teacher school for African American children.

As other historic one-room schools in Calvert County, the Paris School was later converted to residential use. Although complete examination was not possible due to thick vegetation, the school appears relatively well preserved and still conveys its historic role. Therefore, the school is recommended as significant both as a typical one-room school of the turn-of-the-century period and for its role in the education of African American children of northeast Calvert County.
