DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This large frame house is three stories high on a brick foundation facing east. Its form consists of a square main block, with a two-story ell extending to the rear. The building is clad in asbestos shingles, with standing-seam metal covering the hipped portion of its roof, and asbestos shingles on its bell-cast mansard. Fenestration is irregular: on the east (principal) facade, the transomed entrance is placed to the right of center, with two 2/2 sash windows to its left and a smaller stained-glass window on its right, denoting the placement of the stair on the interior. Three 2/2 windows appear on the second story, not aligned over the first-floor openings, and three gabled dormers with 2/2 windows pierce the mansard. The north facade has a large 1/1 window in the easternmost bay at the level of the stairway landing, and three 2/2 sash on each story, with two dormers. On the south, a three-sided projecting bay occurs on the first floor at the southeast corner, with two sash windows beside it, four windows on the second story, and two dormers. All sash is 2/2. A hipped porch with turned posts and balusters wraps around the east, south, and west sides of the building; on the east, a cross gable defines the entrance. Corbeled brick chimneys rise from the north and south slopes of the roof.

STATEMENT OF SIGNIFICANCE

This building is one of several large frame houses along Washington Street with turn-of-the 20th century features: its broad porch and mansard roof are especially noteworthy
