city or town	Patuxent	state	MD

The Maryland Historic Sites Inventory was officially created by an Act of the Maryland Legislature to be found in the Annotated Code of Maryland, Article 41, Section 181 KA, 1974 supplement.

The survey and inventory are being prepared for information and record purposes only and do not constitute any infringement of individual property rights.

St. Nicholas Church:

7.0

The site of St. Nicholas Roman Catholic Church (18 St 398) is located on a level rise at approximately 60-foot elevation, less than 300 feet north of Cedar Point Road and less than 50 feet east of and facing the extant Naval Air Station Chapel. The Church was built in 1795, was replaced by the extant Chapel in 1916, and remained in use as a parish hall until demolished by the Navy in 1943.

The Church was a frame two-story, gable-roofed structure, with at least five windows in the facade of each long axis, and a doorway and two second-story windows in one (west) gable. A vestigial bell cupola was located astride the roof ridge line at the extreme west end just above the centered gable-end doorway. A small, detached wooden bell tower was located a few hundred feet southeast (according to an 1883 photograph).

A photograph of the structure as of 1942 shows the structure in its later function as a parish hall. The vestigial bell cupola has been removed and a one-story lean-to with four windows added to the south facade (with another addition possibly on the north side) and a one-story open porch along the west gable. The Church site was mapped in 1943 at the time of its demolition.

The site of an apparently associated rectory is located less than 300 feet northwest of the site of the Church, and 300 feet northeast of the extant Chapel. The site was discovered when construction of a hot water pipeline intruded the rectory's brick foundation -- virtually destroying one entire foundation wall and sections of two other walls. Associated artifacts and other data suggests the rectory was burned during the mid-19th century --

probably during the Civil War.

#### 8.0

The archaeological integrity of the site of the Church should remain high; its age (c. 1795) and role as one of the first ~~XXX~~ churches in the area make it a site of relatively high significance. The rectory would be similarly significant if it were in equally good condition, however, it has been extensively disturbed due to construction of two pipelines.
