Small Structure No. 18049XO is located on MD 520 over a branch of Whites Neck Creek in St. Mary's County. The small structure has been preliminarily determined eligible for listing on the National Register of Historic Places until an historic context for small structures has been finalized.

Small structure 18049XO is a concrete slab structure with a 16'6" span, concrete pier abutments, concrete wing walls and a concrete parapet with a balustrade. The date of construction is not known; however, it appears to have been erected in the 1930s or early 1940s. The structure retains its primary character-defining elements, including the parapets, abutments and wing walls. The structure has thus been determined eligible for the National Register under Criterion C as a representative example of a concrete slab structure from the inter-War period.
