DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a small two story commercial building, built of brick, with a gable roof. The upper story is unaltered, but the street level facade has been renovated by the removal of the original openings and replacement with a plate glass window and glass door. The exterior surface of the first story has been covered with a pinkish tile that was recently painted white to match the painted brick above. There are two casement type windows on the second story, with segmental arches above. The cornice, supported by carved brackets, is ornamented with pierced work and dentils.

STATEMENT OF SIGNIFICANCE

Although the first story has been renovated, this is still an attractive example of 19th century commercial architecture. The significance of this building is increased by the fact that Cambridge has lost so many of its earlier commercial buildings through fires. The buildings on this corner of Poplar Street (543 to 533) all date from the same era, remain relatively unaltered and could be some of the most attractive commercial buildings in Cambridge, although they are currently in need of paint. The remaining buildings on this side of Poplar, date to the same general era, but have undergone a greater degree of renovation.
