

D-632  
Stanley Cottage  
East New Market  
Private

Mid 19th century

This small, three-bay, one-and-one-half-story frame house with a three-bay wing on the rear stands on the town boundaries on Maryland Route 16. It is known to have been standing in 1876 but its exact date of construction is uncertain. Its scale is much smaller than most of the other houses on this part of the road, and it was probably originally built as a tenant house.
