ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

D-683

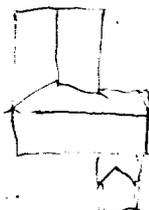

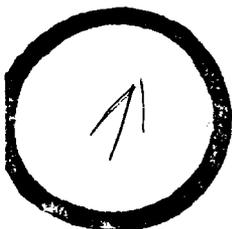

An L-shaped 2½ story weather board frame house which is three bays wide and four bays deep. The building has an asphalt shingle gable roof with boxed cornice with returns. An inside brick chimney is located on the left hand side of the building. The entrance is located in the third bay. The main entrance has a recessed paneled doorway with three light transoms and three side lights. A one bay wide pedimented entrance porch is located over the main entrance. The rear two story ell of the building was constructed later than the main block. 2/2 windows are located in the front block of the building and 6/6 windows are located on the rear. A plain frieze is located below the cornice and cornerboards are located in each corner of the building.
