Justification for decision: (Use continuation sheet if necessary and attach map)

The property, which appears to consist of at least two farm complexes, does not appear to meet the National Register Criteria for individual listing or for district nomination. The frame houses, barns and outbuildings which make up this property appear to date to the 20th century and are a common type for the area. The buildings have been abandoned for some time and consequently are in poor condition. Better examples of modest farm complexes of the period remain throughout the County. The property is not known to be associated with any event or persons significant in history.

Documentation on the property/district is presented in: Project file
