Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo):*

This property has not been previously surveyed. The 10200 Baltimore LLC Property is a 1-1/2-story side-gable brick commercial block with at least two 1-story rear additions made of concrete block and frame with vertical siding. Many areas of the structure feature aluminum/vinyl siding. Dormer additions are on the front and rear roof slopes. Contemporary windows include display, single and paired 1/1 double-hung sash. A full, cantilevered porch is on the front. Multiple back-lit plastic signs are affixed to the building, including a large one on the center front roof slope. The interior is severely altered to accommodate shelves and refrigerated units, which line the knotty-pine paneled walls; it is an otherwise open plan with some counters. According to the current occupant, the building once operated as a restaurant. There is a small, frame front-gable outbuilding located in the rear, adjacent to the parking lot.

Built ca. 1930, the property is not eligible for the National Register of Historic Places. It is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state, or local history. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore it does not meet Criterion B. It is not eligible under Criterion C, as an undistinguished vernacular dwelling with poor integrity due to the additions and modifications made to it. Investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore National Register Criterion D cannot be assessed at this time.
