Description of Property and Eligibility Determination *(Use continuation sheet if necessary and attach map and photo)*

Built circa 1930 on a 36-acre farm owned by the Kerby family, this typical bungalow now appears vacant and is suffering deterioration and vandalism due to abandonment. A typical square, frame structure, this bungalow has a clipped side gable roof with a shed roof dormer, overhanging eaves with exposed rafter ends, six over one windows, and a large, open front porch with flared carved wood supports resting on concrete bases. The Kerby Market, a single story side gables produce market with a shed roof overhang and rear addition remains on the property.

Research has not revealed any association between this structure and events that have made a significant contribution to the broad patterns of our history (Criterion A) or the lives of persons significant in the past (Criterion B). The building is not a good example of any style; nor is it distinguished; it does not represent the work of a master or display high artistic merit (Criterion C). Although archeology was not addressed in this study, there is no indication that the property is likely to yield information important in history or pre-history (Criterion D). Therefore, this property is not eligible for the National Register.
