Is the property located within a historic district? X no ___ yes ___ Name of district: _____

Is district listed? ___ no ___ yes Determined eligible? ___ no ___ yes District Inventory Number: _____

Documentation on the property/district is presented in: Compliance Files

Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

The small frame house, constructed in ca. 1942, is located within a developing section of Carroll County along a strip of largely late twentieth century split foyer ramblers, at the interface with a more rural agrarian section. Designed in a minimalist traditional mode, it is a side-gable, one and one-half story structure with a entrance centered in the north, principle elevation, protected by a one bay wide, cross gable porch.. Clad with asbestos shingles, paired windows are located to the east of the entrance, whereas flanking the entrance on the west is a single window. All fenestration is one-over-one replacement vinyl sash windows. A garage is located to the rear. This dwelling is an undistinguished example of a small frame building that may have replaced a modest farmhouse that was formerly connected with the agrarian pastoral utilization of the general environs before subdivision housing started to be built on its flanks

It lacks significant architectural distinction and therefore would not meet the National Register criterion C. In addition, it has no known significant association with important persons or events, thus it is not significant under Criteria A, or B for listing in the National Register. Its possible significance under Criterion D or information potential for its significant archeological associations, in connection with a former structure, has not yet been determined.
