QUEEN ANNE'S COUNTY SHERIFF'S OFFICE
RECORDS MANAGEMENT PROGRAM
"RECORDS CREATION, MAINTENANCE AND DISPOSITION"

This directive establishes an agencywide records retention schedule for local ordinance and accreditation compliance.

Personnel concerned: all office employees handling paperwork and computer records.

Distribution: Departmental employees engaged in files management operations.

A sound records/information management system is recognized by business executives for efficient agency operations.

This handbook is designed to give police personnel:

- Uniform filing practices
- Paperwork reduction procedures
- Computer file purges

This custom-made Records Management Program will:

- Save premium office/storage space
- Improve filing operations
- Reduce filing equipment expenditures
- Comply with legal retention mandates

Used frequently for reference, this handbook will help you perform your records management responsibility more efficiently.

INSTRUCTIONS FOR DISPOSAL OF RECORDS

1. Use of Records Retention Schedules

- a. Ensure that records to be destroyed match the description of the record retention schedule and that they are "due" for destruction.
- b. Regardless of schedule disposition criteria, agency personnel should not dispose of records if they are still needed by the agency for administrative, legal or fiscal purposes. If necessary, modify schedule by increasing retention period.
- c. If no existing schedule covers the records, they cannot be disposed of until a schedule has been prepared and approved by the State Archivist.

2. Screening for Disposal

- a. To dispose of a block of files, it may be necessary to remove certain folders or documents which have continuing value.
- b. Such removal is called screening and may involve either removal for retention or withdrawal of materials to be destroyed.
- c. Folder by folder screening can be avoided by immediately removing closed cases from the files and placing them in a closed file. Disposal of these files can then be accomplished as desired. Screening is costly and should be avoided when possible.

3. When to Dispose of Records

- a. Avoid interfering with current operations. Pick a slack period and during this period carry out a housecleaning of the files. Prepare records for disposal.
- b. If practical, disposal should be done once a year. A good time would be at the end of a calendar or fiscal year.

4. Methods of Disposal

- a. Police records should be destroyed by shredding, burning or other techniques which obliterate record content; such destruction to be witnessed by a Queen Anne's County Sheriff's Office employee aware of the records contents.
- b. Records that do not contain police information or are not privileged in nature, should simply be placed in a trash container.

5. Disposal Certification

- a. Inclusion on an approved and currently valid records retention and disposal schedule coupled with expiration of the retention period applicable to records involved is authority for records disposal.
- b. Following the actual physical destruction of records, a certificate of records disposal must be prepared.
