Re: Destruction of Specific Records Destroyed in the Flood of September 2011

Dear Dr. Papenfuse:

At the outset, I would like to thank you and your staff again for all of the assistance that you continue to give to Prince George's County as we work and coordinate to restore all of the documents that were damaged in the flood of September 2011.

As you know, all of the cases, which represent hundreds of thousands of documents were removed from the warehouse, which was maintained by the Clerk of the Court for Prince George's County, Maryland. Most of those documents were turned over to the custody of AMRESTORE, a document restoration Company, which was procured by the County to restore all of the documents. The process of restoration is ongoing and we anticipate having all of the documents returned to the Court sometime in February of 2012.

In addition to the documents that are being restored there were approximately thirty five thousand (35,000) cases that were severely damaged in the flood and were placed in "Alternative Storage" at the Landfill until further assessment could be completed by the staff of the Clerk of the Court and the Court. These are Criminal Appeal (CA) and Criminal Jury Trial (CJ) cases from 2000 to 2006 that have been closed and were waiting to be destroyed. (See attached list.) It did not seem prudent to expend the funds to restore these files only to destroy them. Staff from the court and the clerk's office has done an audit of the cases and

have provided a list of all of the cases that were housed at the warehouse on the date of the flood. They have also done a random sampling of the files to verify that all of the files have been micro filmed consistent with their practice before the file is sent to the warehouse.

Now that this coordination is complete, I am asking for your concurrence to destroy the paper files which we are currently holding in the "Alternative Storage Facility" at our Landfill. The Clerk's Office will maintain the micro film copy as the original of these files. I have attached hereto a listing of all files that are maintained in the "Alternative Storage Facility" at our Landfill as well as a certification from Roxanne Young, from the Clerk of the Court's Office, concerning these records.

Thank you for your attention to this request and I look forward to your prompt response.

Sincerely,

Sheila R. Tillerson Adams  
Administrative Judge
