MICROFILMING PROJECT

PURPOSE

To microfilm Death Index Cards for Civil Defense purposes, that is, to store the micro-film in a secluded area free from "zone zero" and if disaster occurs to immediately set up a duplicate index card file using photographic paper as the card, the card image being made from the micro-film image.

The cards were filmed rather than the certificate because:

- (1) Index cards are more adaptable to the automatic feed and all the essential data are shown thereon.
- (2) Index cards would take approximately 1/3 the microfilm, the index card being $2\frac{1}{4}$ " as against the certificate measuring $7\frac{1}{4}$ ".
- (3) The issuance of certified copies can continue as usual.

PROCEDURAL DATA

It has been determined that on 100 feet of microfilm approximately 6500 $2\frac{1}{4}$ x 3" index card images can be taken at a reduction of 23 to 1.

To average five microdex points (sections) for each 100 feet of microfilm there will be approximately 1600 $2\frac{1}{4}$ x 3" death index cards between microdex points.

DECLARATION OF INTENT AND PURPOSE

I, Frances Young, employed by State Health Dept.
do hereby declare that the records microfilmed herein, are actual records of the
Death Index created during its normal course of business and that:

It is the express intent and purpose of this organization to destroy or otherwise dispose
of the original records microphotographed herein, and that:

The destruction or disposition of the records microphotographed on this reel is only to be
accomplished after inspection of the microfilm to assure completeness of coverage, and that:

It is the policy of this organization to microfilm and dispose of original records as part of
the planned organizational operating procedure.

CERTIFICATE OF AUTHENTICITY

THIS IS TO CERTIFY that the microphotographs appearing on this Film-File
Starting with Wilson, Fannie D. -- 1909, October 17 -- Frederick and
Ending with Zylka, John -- 1913, September 4 -- Anne Arundel are
accurate and complete reproductions of the records of (Company and Dept.) Maryland
State Health Department as delivered in the regular course of
business for photographing.

It is further certified that the microphotographic processes were accomplished in
a manner and on film which meets with requirements of the National Bureau of Standards
for permanent microphotographic copy.
