WATER & SEWERS	AK	8/29/61
R/W-REQ'D.	NO	8/11/61
OTHER UTILITIES	JFS	8/18/61

GENERAL NOTES

1. Adjustment or repair to utilities damaged as the result of contractors negligence or method of operation must be made at his expense.
2. Information concerning underground utilities was obtained from available records, but the contractor must determine the exact location and elevation of mains by digging test pits by hand at all utility crossings well in advance of trenching.
3. Top elevation of structures shall be adjusted in the field to meet existing conditions.
4. All elevations shown are invert elevations, unless otherwise noted.
5. Maximum length of pipe used on curves shall be four (4) feet.
6. All conflicting utilities shall be relocated by others.
7. Break cradle 9" each side of water mains.
