Big Four Coal Land Development Company

602-3 House Bldg., Pittsburgh, Pa.
Baltimore Office, 246 W. Biddle St.

The Coal Mining Industry and various enterprises growing out of the production of coal offer a most profitable field for development. Many millionaires have made their money in COAL.

As a bit of history, not generally known, a few colored men have the key to this industry. These men have made money in the coal mining business, and they are now devoting their energies to developing a "BIG BUSINESS" in which they can use their unusual knowledge and experience in making this industry a positive and powerful factor in our financial and industrial advancement, and incidentally in which more money can be made for themselves and for their associates.

An Investment in Coal is SAFE and PROFITABLE.

Introductory

BY MR. E. C. WILLIAMS

Librarian, Howard University, Washington, D. C.

 formerly Librarian of Western Reserve University, Cleveland, Ohio;
 and Principal, M Street High School, Washington, D. C.

One of the great differences between modern civilization and the ages that have gone before is to be noted in the use by many men of information compiled and published by one of their number. It is impossible to make even an approximate estimate of the time and energy saved to the human race by the application of such a process in modern life. Little by little men have learned the value of organization and co-operation, and have understood how to make use of the labors of their fellows, and today the extent to which this is done in any group or community is an accurate index of the state of advancement of that group.

For a long time after the Civil War, the colored people in this country were "hewers of wood and drawers of water," and their business and industrial life was of the simplest kind. As the years passed slight changes were noted, and in very recent years the change has been most rapid, especially in the great urban centers. One of the recognized accompaniments of modern commercial and professional life and organization is the directory. It is now sixty-one years ago since Bradstreet first published his famous commercial directory in New York. Eight years ago the publisher of this work thought he saw the need of a directory for the colored business, professional and educational world of Baltimore, and later included the adjacent cities of Washington, Wilmington and Annapolis. That his thought was a good one is evidenced by the fact that in the years intervening between 1913 and the current year nine editions of this work have been published, and similar works have been compiled for other cities with large colored populations, in imitation of Mr. Coleman's idea.

One of the very interesting things about this directory is its compiler, himself well known in the three cities which figure in its pages. Mr. Robert W. Coleman comes of good stock, being the son of Sergeant A. B. Coleman, who, associated with the younger Frederick Douglass, helped to organize the colored regiments in Massachusetts during the dark days of the Civil War, and for this service received the thanks of the legislature. He is a brother of Mr. John H. Coleman a prominent business man of Chicago, and a cousin of Mr. Robt. H. Terrell, of the Municipal Court, Washington, D. C.

Stricken, after he reached adult manhood, with almost complete blindness, Mr. Coleman, though weighed down by the responsibility for the care of a large family, showed the stuff that was in him by learning a new trade, that of piano-tuning, and in his odd hours, at certain seasons of the year, collecting the advertising and other material for his directory in the four cities concerned. His energy, courage and perseverance, under such a handicap, have been little short of marvelous. Mr. Coleman is a graduate of the Business Department of M Street High School, Washington.

The directory idea, in this new age of progress and expansion among the colored people, is capable of almost indefinite extension, and its possibilities are unlimited. It is our hope that the originator of the idea may some day realize his most ambitious dreams concerning it. With the assistance and co-operation of the communities involved, not only in the way of advertising, but also in the furnishing of complete and accurate information, there is no reason why he should not do this, for the enterprise is certainly deserving of the most hearty and generous support of the public.

Mr. Coleman's

MRS. LAURA BRUCE GLENN

**District Visitor of the Associated Charities and Prominent Society Lady
of Washington, D. C.**

Mrs. Laura Bruce Glenn, though a native Washingtonian, completed her high school work in the public school of Chicago, and graduated from the Pedagogical Department of Howard University in 1901. For three years she taught in the University and in 1907 married Mr. A. H. Glenn, head of the Department of Languages in the High Schools in the District of Columbia, and for many years secretary of the Board of Examiners.

Mrs. Glenn served for a long time as volunteer friendly visitor for the Associated Charities, having completed with credit a course offered by the Red Cross Home Service Authorities of the District of Columbia. She was assigned as associate visitor to the office of the Seventh District of the Associated Charities. Not long after her assignment to this post the senior worker was withdrawn and Mrs. Glenn was left in sole charge of the work of this district.

After the resignation of Dr. J. H. N. Waring, as superintendent of Camp Pleasant, in 1907, for colored children, Mrs. Glenn was appointed to the position.

The colored population of Washington offers an immensely rich field for practical and theoretical work along the lines of social service. Mrs. Glenn, through her unusually efficient and sympathetic work, has demonstrated what the possibilities are.

Editorial

Great impetus has been given the cause of education in the city of Baltimore by the award of higher salaries to our faithful teachers. The slight discriminations in the salaries of women teachers and in the salaries of colored teachers of the secondary schools should, and in all probability will be speedily removed. The other spur to progress was the well-planned and splendidly executed survey of the schools under the direction of Dr. Strayer, of Columbia University. All phases of school keeping from the physical condition of school plant and its surroundings to the general administration were investigated. The effects or results of education upon the community and in the lives of the children were likewise carefully considered.

The main features of the survey recommendations have been given to the public from time to time. Of greatest interest to us perhaps is the recommendations for better buildings, for a new senior-junior high school, for the unification of the colored schools under a colored supervisor. The findings of the survey also suggests the need of better trained teachers, of greater professional growth of teachers in service and of hearty support of the entire population. The people must back up the schools. The citizens must join hands in their effort to help our schools make progress.

Let us all get behind the school, the School Board, the Superintendent, the principals, the teachers, that our schools may render efficient work in the education of our children. Let us build up.

Morgan College is rightfully coming into its own. With the financial support from the city administration and larger enrollment of city teachers at summer sessions and in winter extension courses. Morgan College should command the services of a highly capable faculty, thorough school men and women.

The selection of Dr. Cameron, principal of the Teachers' Training School for Whites, as director of the Summer School, may be considered a good temporary beginning.

We could not go to press without making favorable comment upon the community journal of Benjamin Banneker School, edited and originated by Prof. Joshua E. Maxwell, principal of No. 113 Night School and member of the faculty of the local High School.

This little journal is becoming very popular and is informing the parents through its pages of the literary accomplishments of their children.

The "Lesson Plan for Graded Sunday Schools" in the A. M. E. Church, written by Mrs. Hannah E. Frey, is an excellent work, which will serve to instill the principles of religion in our boys and girls.

No publication dealing with the progress of colored people in this country would be complete, in the fullest sense, without expressing a word of genuine appreciation to the many white men and women throughout the entire country who have contributed so largely to our civic, material and spiritual advancement. Dotted everywhere, in flesh and blood, in stone and mortar and noble achievement, is the concrete evidence of the spirit that has reached out the helping hand of justice and brotherhood.

We are apt, now and then, to fail to see that despite the conflicting forces of right and wrong, we have a vast throng of uncompromising white friends; we are apt, I say, to fail to appreciate their material help—their sacrifice in blood and their manly and womanly championing of our cause of humanity.

Whenever in this country an institution of learning lifts the torch of knowledge; wherever a Y. M. or Y. W. C. A., hospital, or other agency of mercy and social welfare exists—in nine cases out of ten they have had the material and moral aid of big-hearted white men and women. When we review the fate of the races of men in past history and think what might have been, and when we are struck with the wonderful progress revealed by the pages of this book, our sense reflection becomes more intense.

Lest we forget, then, let us here and now dedicate this space to a heartfelt and genuine appreciation of our white friends' attitude towards Negro Advancement, without whose valuable aid it never, never could have been achieved.

Dr. G. W. Kennard's Hospital (1885-1920)

RESIDENCE, 708 ENSOR ST.

704-706 Ensor Street, Between Monument and Madison

Centrally Located—Easily Accessible

After the establishment of The Kennard Hospital in the City of Baltimore in the year 1885, the demands for additional hospital facilities increased steadily. Thus the spacious three-story brick building was opened. This Hospital, established over 30 years, with the inscription on the front, "For the Cure of All Manner of Diseases," has carried out the assertion by the number of years of successful operation which speaks columns for its praise. At the main entrance is the waiting room; to the right is the Drug Department, where four drug clerks are regularly employed, whose aim is always to please and, by double check system, always accurate. Second floor, to the right of the corridor, Prof. G. W. Kennard's private office, is fitted up to meet the approval of the very particular. On the same floor is a spacious dining-room, and a well-fitted-out Chemical Laboratory also. On this floor is located the Operating Room; all the instruments of the latest invention to insure best results are here; everything perfectly sanitary. On the third floor, bedrooms, private dining-rooms, baths and all other conveniences that come under the sanitary law. Cheerful visitors and obliging nurses are to be found here. The whole thing in a few words—A Home-Like Hospital, where the best of treatment is to be had. Rates, \$1.00 per day and upwards. For further information, write to Dr. G. W. Kennard, M.D., Ph.D. Staff of Assistants: Dr. J. Edward Smith, Recording Secretary and Resident Physician in Charge, 722 North Spring Street; Dr. Henry T. Kennard, Corresponding Clerk; Dr. Henry T. Kennard, Supply and Financial Clerk, Residence 708 Ensor Street. Church and Hospital are being enlarged with a 3-story brick building, at a cost of forty thousand dollars.

The Profit-Sharing Building and Loan Association

This Association is the same as all other Building Associations in every particular, except two new features, which are as follows:

First—YOU DO NOT HAVE THE TROUBLE OF ATTENDING THE MEETINGS OF THE ASSOCIATION.

Secondly—YOU DO NOT LOSE TIME OR SPEND CAR FARE TO MAKE PAYMENTS OR DEPOSITS.

These Banks are placed right in your own home, so that at any time during the week or month, which is most convenient, you can place therein your payment, without the loss of a moment's time or a cent car fare.

Along with the Bank you have a Building Association Book, the number of which corresponds with that of your Bank.

The Association has provided agents who will call upon you weekly or monthly, open your bank and take therefrom your weekly or monthly payment, credit it in your book and bring the same to the office in the same manner as is done by the Sick Benefit Societies.

USE Mme. E. Northern's HAIR GROWER

Is Guaranteed to grow hair. Use it on a clean scalp. You know that everybody's hand is not good for everybody's scalp. You realize that some people's hands bring success in whatever they undertake and with what I have learned and what I can teach you, I believe that God's power is in the hands of success, through faith, which we should put in all things.

I make my own HAIR GROWER. The best success starts small and grows larger. I first made up five pounds, and it did so much good that I made up fifty pounds and I now see that I will soon have to make up a hundred pounds. So you see how business will grow.

Give us a trial and if we please you, tell others; if not tell us. If we don't do as we say by your giving us a trial, then tell us. We do not knock any other hair dressers, as they are all in business for a living.

We thoroughly treat your Scalp first and then for disease of the Scalp.
