SOWING WITH CANNON.

How a High, Rocky Crag Became a Thing of Beauty.

Near Blair Castle stands a high, rocky crag named Craiglebarns, which It was considered impossible for any one to scale its steep and dangerous acclivities, and no other way was thought of to get seed sown.

One day Alexander Nasmyth, father of the celebrated engineer, paid a visit The dangers of the public swimming to the grounds. The crag was pointed pool should not be torgotten by those out to him, and, after some thought, he suddenly interested in the subject of hit upon a scheme. In passing the W. H. Doll, General Agent, Passen cleanliness among the poor of the castle he noticed two old cannon. He ger Department, Washington, D. C tf. cities. The proper methods of bath got a few small tin canisters made to ing are four: (1) By the bath in fit the bore of the cannon and filled The burned district of Jacksonville ocean water at the seashore.
