alded much to his popularity and juffueucs. He has made his way to the trout L'regret very much that I am phable to tell you the name of the vice president. Weil I will listen around and if I learn bis name will let you know. You must take good care of yourself and let me hear from you.

Prof. Trigg from Maryland, was here also. He is at the head of the school at Princess Anne. He feels that he is an important man in this part of the conutry, and he has a right to do so because he is doing comething else besides tark. There are some educated beople in this country who have won the Lame educated, and among this number is to be found Prof. A. U. Craig, of Armstrong manual training school, and man who is worthy of being ranker among the foremost men of the age. He

greeu man like me can reach him. Would it be out of place for me to in form the readers that an important char acter in this meeting was Dr. J. N. H. Waiing, principal of the High School in Baltimore, Maryland, who is chanman of the executive committee and who is indeed an important man. Dr. Waring held up the Baltimore end of the mee. ing and his address was well rendered. Without a doubt he is a great man, and for this reason I am proud of him.

This year I have made up mind not to talk too much, but I teil you after meeting so many educated men and women, men like those I have aiready mentioned, and Dr. Montgomery, a-blstant superintendent of the Washington schoole, Mrs. Anna J. Cooper, principal of the high school of Washington, and so many others I can simply say praise tue Lord. My whole sour within me is happy and who can blame me for it? I have made the following resolutions:

To always to tell the truth and never To cat as often as I can get it. To serve the Lord. To pay all honest debts.

To say my prayers every night and morning. To say kind words to my private secretary and pay her a better salary. To visit some echools and sing solos To stay away from where I am not

To not say "cuss" words. To thank the Baltimore party for correcting my mistakes.

To visit Washington City. To attend Sunday School every Sun day and give some money in the same. To eat cuicken wherever I can get it. To avoid friction with white folks and

ether folks. To attend church wherever 1 . m think this will be better. With the above resolutions I am pre-

pared to enter life, and I am going to enter it too. I closed the year in Memphis and started out in the same lown. I want to enter into details of my visit to this part of the country, and to say a few more things about Frankfort and the bear dance. It is a great thing to be able to do the bear dance. You will have to go back to next week if you want to know more about.

I want to pay my respects to Mr. T. K. Robb, the undertak r of Franktort, Ky., who i indeed a great man. I had tue pleasure of attending a banquet dur ing my stay in Frankfort, and it was Forty-Second Audiversary of The jus. fine. Mr. Rubb sent one of his cal riages out for me and toted me to the banquet, and the rain kept me back a little while. I say it was a little while and I am sure that is what it was.

I feel like that I want to say many other things but will not do so this week. Look out for me next week. Want to tell you about Dr. E E Under. Wood who is perhaps the greatest motter 'M. E. church, on "The Needs of the in Kenincky, and that he is indeed thaning a great head. Dr. Underwood is quent every heard here. A was glad to see how the students of Normal honored their president, Pret. William H. Councill. In this town there are many Normal graduates, and they are pushing their way to the front. When they heard that Prof Conucil was in town they at once prepared to entertain him and they did. In honor of Prot. Council a fine banquet was given at the home of Ernest A. William. This was indeed a fine affair. I was on band with Prof. Councill. The follow ing students were present: E. A. Will iams, E. P. Tenny, or, Einise Patterson, H. D. Siatter, D. W. Wells, Alberta Sawyer, H. C. Brayan, and W. H. Moore. I enjoyed very much being there. I want to congratulate young people who arranged for it. I had the pleasure of seeing Miss M. Davis au many others while in town, and erjoymeeting them. Well I must bring elected the following officers for the these scattering remarks to a stop until the next time. J. O. MIDNIGHT.

Talks is Cheap, and Actions Speak

In order to prove to the public that GLOSSINE is the greatest and most meritorious of all hair tonics we will give free to every reader of this paper (not a sample) but a tull box size. If Glossine was not the best hair tonic in all the whole wide world this offer would bankrupt us Glossine Queen of all hair tonics) is the most wonderful remedy for the human hair ever discovered and has astounded the whole world by 115 miracultus and mysterious power in lengthening, straightening and beau-I tifying the buman nair. It is the result of long years of careful study and the earnest researches of Miss Helen Martin a beautiful and attractive woman who is acknowledged the most skilful and famous Beauty Doctor of the day. She is a worderful and most magnificent specimen of womanly grace and beauty, and although now 58 years of age she scarcely looks to be 30. When asked by what undimes she had been able to so successful preserve the attractiveness and beauty of youth. Miss Martin said, Wby it is very simple to me and every woman be she white or color ed, young or old or as ugly as sin itself can become pretty shapely and graceful if she only do as I advise. As a child I was pever considered pretty, in fact I was not even thought to be good looking, and for this i very reason ever since I was a girl of 16 I have made a study of such agen cies and materials which tend to beautify and adorr the human person. In the glorious Vegetable World which nature has so bounteonaly be stowed upon us there are hundreds of innocent mediums, which after my long life of study and investigation I have been able to successfully blend e and formulate into various preparations which enhance and preserve the life and beauty of the bair and skin. I owe my own good dooks and al of the Thirty-Third Degree Ancient | youthful appearance to these preparations which are the results of my life long work. As to GLOSSINE I have never known it to fail to cause the hair to grow long, straight, soft and luxurions. It matters not box har-" and kinky it may be and I care not if it be short broken, spinting at the ends or falling our Glossine will positively make it long, soft, straight and pliant. It will give to the hair luster, length, life and beauty and no head of hair can be so harsh and refractory bur that Glossine will make it e so pliant and wavy that it can be dressed with ease and in any privation z a style desired. It will restore gray hair to its former color, make the hair grow out on bald spots, and on the temples where the har is noughly three and unsightly.

Glossine is highly, sweetly and most delicately perfumed, and it-color and sub-istency is very attractive to all. Seeing our great on cess and with the desire to trade upon our reputation gained by long years of honest dealing numerous unscrupulous firms are trying to fool the people into buying spurious and harmful compounds for the han and skin. That e causes the nair to fall out thus causing baldness and rain, mar and deface the delicate texture of the human skin. In their wicked desire to gain mouey these people do not hesitate to sell the people many preparations which are dangerous to life itself. In order to discountenance and can demn such dishonest methods, Mo. Martin has decided to give a full size package of Glossine to any reader . this paper male or remale who will send their name and address. Do not delay. Write to day. A postal card will do. We will also send our catalogue which describes in detail our hair tome. Face Blea bes and o her toilet requsites.
