Terrible Scaly Humor in Patches All Over Body-Skin Cracked and

Bleeding-Cured by Cuticura.

"I was afflicted with psoriasis for thirty five years. It was in patches all over my body. I used three cakes of Cut:cura Soap, six boxes of Ointment and two bot-

tles of Resolvent. In thirty days I was completely cured, and I think permanent ly, as it was about five years ago. The psoriasis first made its appearance in spots, generally forming a circle, leaving in the centre a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form heavy dry scale of white silvery appearance, and would gradually drop off. 'remove the entire scales by bathing (using oil to soften them the flesh would be perfectly raw, and a light discharge bloody substance would coze out. The scaly crust would form again in twenty four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin work crack and bleed. That in addressing Mrs. Pinkham you are confiding your private ills to a woman -a woman whose experience with women's diseases covers twenty-five years. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, and for many years under her direction, and since her decease, her advice has been

freely given to sick women. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probable examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.
