Great Hair Straightener and Grower

Cst Wonderful Discovery ever made for curly, kinky and knotty hair. Makes hair grow long, straight, soft and silky; cures dandruff and stops falling hair. Kink-ine acts like magic on the hair.

Hink-ine Is No Experiment. It was discovered by R. Roberts, a famous English chemist, who has made a study of the scalp of colored people for the past 30 years, and who, after much time and experience, has prepared this great started. tonic for the colored people.

This chemist says that his experience and study have taught him that the scalp of the colored people requires a special treatment and after laboring and testing these many years he has discovered the greatest REMEDY the WORLD has ever known for the HAIR of colored people.

KINK-INE will make the hair GROW from one to three inches per month, if the directions and instructions are carefully followed out. We have many cases on record where the above results have been obtained, and we do not besitate when we make these claims.

KINK-INE is the only safe preparation in the world that is guaranteed to make the hair straight and make dry hair smooth and stop it from breaking off and falling out; takes out all the kinks and knots, cures dandruff, makes the hair coft and silky, and by nourishing the roots gives it new life and vigor, restoring it to natural color.

Read what Miss Elizabeth Jones of Chicago says of KINK-INE: "My hair was not more than three inches long when I commenced to use Kink-ine, six months ago. I have used it steadily since that date and it has grown on an average of two inches each month and it is now more than fifteen inches long. Besides, my hair has become almost straight and I fully believe by the end of the year I will have the most beautiful head of hair of any colored lady in the world." SPECIAL OFFER.—To prove the quality and superiority of our goods over all others, we will sell one full-size

bottle of Kink-ine, price 35 cents, one cake of Kink-ine Sonp, the best Shampoo and Toilet Sonp in the world, price 25

cents, both for only 50 cents, or six bottles and six cakes of soap for \$3.00. Special offer good only at the following

HARSH STUBBORN HAIR

HAIR IT FROM BREAKING

Not New or Experimental, but an Old, Reliable Preparation of Proven Merit.

Welson's Hair Dressing is an ideal Hair Pomade. It contains no strong ngerous chemicals that can in any way injure the hair. You can use it just as long as wish, or stop it any time without any bad effects. It does not affect the color of the mir. Nelson's Hair Dressing softens harsh, stubborn, refractory hair, prevents it from becoming dry and brittle, and enables you to do it up in any style consistent with its length, at the same time giving it that rich, glossy look so much desired. As a Hair Grower we consider Nelson's Hair Dressing the equal anything made. It supplies the needed oil directly to the roots of the hair, softens and invigorates the scalp, thereby removing dandruff and promoting the growth of the hair. Stops the hair from falling out, breaking off and splitting at the ends, which is nearly always due to lack of natural oil in the hair. Melson's Hair Dressing is an excellent remedy for all kinds of Scalp iseases such as Tetter, Itching and Scaling of the Scalp, Dandruff, &c. Nelson's Hair Dressing is delightfully perfumed; put up in handsome counce square tin boxes (like one shown in cut), and sold everywhere by druggists and agents at 25 cents a box. If you cannot find it in your town, send us 30 cents in stamps and we will mail you a full size box, postage paid. Address,

Malaria used to kill 15,000 peryear the mortality fell to 7835.

The underground water investigations were conducted by the United States Geological Survey in the East-, ern States this summer. Work is under way in Maine, Connecticut Virginia and Florida. Investigations on the underground waters in Pennsylvania and New York have been

The second section of the cable connecting Germany with German Southwest Africa is now being laid. This section is about 4000 miles long, and starts from Vigo, in Spain, and ends at Walfisch Bay, Demaraland. The first section from Emden to Vigo, a distance of 2099 miles was laid ten years ago.

Attention has been called to the fact that in evaporing gold or silver solution in a porcelain basin, a considerable amount of gold or silver may be absorbed by the porcelain itself. In the manufacture of chloride of gold it is customary to grind up , all of the porcelain evaporing basins, from which some of the deficiency is '

Recent experiments by medical experts in Rome have disclosed the fact that the increase in consumption and contagious diseases of a similar character is due to flies, just as the spread of malaria is due to certain kinds of mosquitoes. It is planned to kill flies by means of inoculated diseases, and it has also been suggested that money prizes be given for destroying a certain quantity.

SOUTH AMERICA.

A new foghorn signal has been installed in the lighthouse at The Needles. It consists of reed trumpets blown by compressed air. It can be heard ten miles. This is a distinct advance on the existing fogbell, the warning note from which does not penetrate more than three miles. When a fog descends, the new apparatus can be started instantaneously from air vessels held in readiness and charged at one hundred pounds' pressure. The duration of the blast is five seconds in every fifteen.

An ingenious apparatus for drawing the profile of a river bottom is used by Italian engineers. It consists of a wheel affixed to the bottom Soble O. J. W. Scott, thirty-third , of a graduated rod, which is fastened vertically at the side of a boat in such a manner that as the boat advances up or down or across stream, the wheel at the end of the rod runs continually upon the bottom, the rod rising and falling with variations of Noble A. A. Watts, thirty-third level By noting the depth at chosen intervals of time, the elements are obtained for tracing an accurate representation of all the sinuosities of the bottom of the river, and the variations of depth. In the saving of time this simple apparatus possesses an enormous advantage over the ordinary method of soundings.

Proof of His Skill.

Frank Miles Day, the well-known architect and essayist, of Philadelphia, stepped carefully from a Persian rug of dull green and old rose to another rug of rich blue, for the polished floor beneath was dark and smooth and slippery, like ice.

D. C., Chairman; James O. Bamfield, Wearied Eyes. In these days of study and seden tary work requiring much use of the eyes, they often become so tired that they refuse to do good work. This is particularly true when the work is Va., Jas. H. Hill, Washington, D. C., done in a poor light, or when it Hiram Watty, Baltimore, Md., devery fine work. Few eyes will bear i such treatment for any great length time without being spoiled. The ion is often asked us, what can be done in such cases? There is one value. It consists in massage with the hand wet in cold or cool water. Fill a basin with it, and standing over it wet the hand with as much water as it will hold and apply it to the eyes, at the same time with the thumb and forefinger giving the eyes a gentle manipulation. Continue the process for four or five minutes several times a day. The results are often almost marvelous.
