World Governed by "Suggestion"

By Dr. Forbes Winslow, Pioneer of Psycho-Thera. peutics in England

RAINED observation teaches us that the whole world is made up of one gigantic "suggestion." Some are more liable to it than others. It is in many instances an evidence of a strong mind to be able to resist its influence. There is no such thing as "fashion." What is gener ally understood by that name is nothing more nor less than suggestion which many are unable to resist. The craze for the "Chantecler" hat for ladies is pure suggestion, and nothing else.

Those suffering from what is termed "folie de doute," or want of conof another large diamond at the fidence in themselves and want of control, are effectually cured. Suggestion, like medicine, requires careful dispensing. It is not every

"It is one of the most pathetic horse stories of the war," declared the colonel. Then, when the veterans of the blue pressed him, the old Confederate soldier closed his eyes and began to assassin until he had made his escape tell of the incident he referred to, which happened at the Battle of Shiloh. PETTY REVENGE MOTIVE FOR THE CRIME.

H. Bousman Was Sleeping In A Hammock In Front Of His Residence When The Explosive Fell At His Feet-No Clue To Murderer-May Be A Lynching If The Guilty Person Is Captured.

Ridgeway, Va. (Special).-Former Mayor A. H. Bousman was assassinated with a dynamite bomb which was thrown from the street into a hammock in which he was lying, He died an hour after the explosion. No clue to the identity of the murderer or the cause of the crime has been found. Mr. Bousman had been spending the hot evening sleeping in a hammock swung between two trees on the lawn in front of his residence. Without a word of warring, about 10 o'clock, the dynamite bomb was thrown by someone passing along the street. It landed in the hammock at his feet and in an instant exploded. The mayor's feet were torn away by the bursting shell, and his legs frightfully mulilated. In great agony he died an hour later.
