Eleven Years Retires to Devote Fu- | Lafayette market. Farewell.

By R. W. THOMPSON.

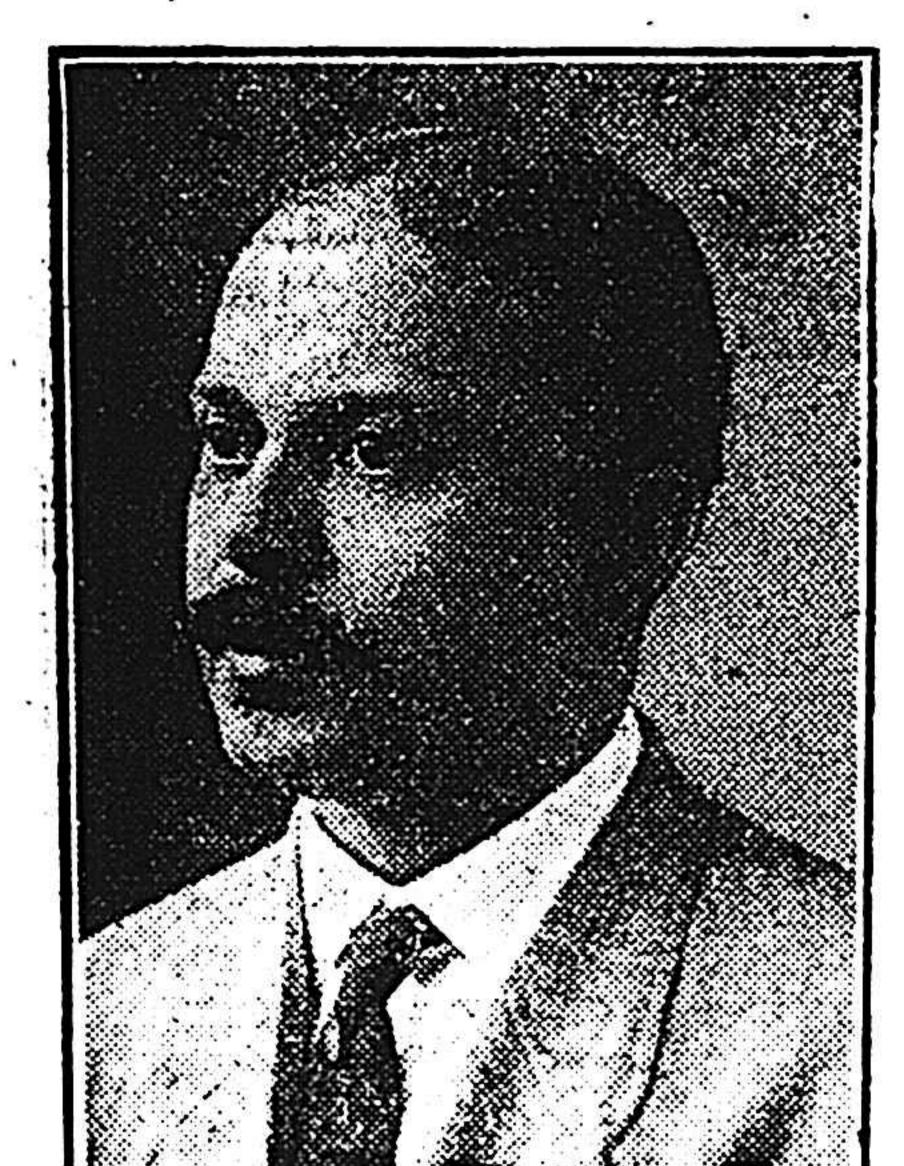

Washington.-With the close of the present school year Dr. C. Sumner Wormley severs his connection as superintendent of the department of dentistry at Howard university. The urgent demand for more time to devote to his private practice is given as the sole cause of Dr. Wormley's resignation. He has been at the head of the dental section of the medical school for eleven years.

The senior class in dentistry has presented Dr. Wormley with a massive silver loving cup as a testimonial of affection and appreciation of his unselfish efforts in behalf of the class. The presentation speech was made by William H. Whitted, president of the class, who paid a lofty tribute to the character and productive labors of the retiring instructor.

Dr. Wormley thanked the generous donors and told in a most touching) manner how he had tried to his utmost capacity to serve his alma mater and i how he had made the upbuilding of the dental department his "hobby." To illustrate the extent to which the institution has developed under the fostering care of Dr. Wormley, there was spent last year alone for improvements, materials and equipment over \$2,500.

Dr. Wormley, with characteristic modesty, disclaims any large measure of credit for the happy results achieved. He attributes the lion's share of the school's forward march to the encouragement, sympathy and support extended by President Thirkield, the progressive head of the university; Dr. C. H. Howland, dean of the dental department, and by Dr. W. C. McNeill,

secretary of Howard Medical school. Dr. Wormley is public spirited to the last degree and is always willing to give of his talents and his means to worthy movements in behalf of the people. He served two terms with marked distinction as president of the Washington, the first organization of

The institution has grown from an expense of \$250 per school year to that of \$45,000 per school year for 1911-12 All of this is upon the work of an institution free from any church creed and free from any political influence.

The school owns ten excellent buildings, about 300 acres of land and the best horses and mules and the best kept farming implements in the eastern section of Virginia.

While the institution is strictly re

Up to the present time President Smallwood has kept the institution i his own hands, working to free it from debt and to find himself able to i present the institution to the Negro race and to American friends free from debt. (Verse 6.) To the question of John through the two disciples whom he sent, "Art thou he that i should, or do we look for another?" (verse 3) Jesus in that same hour wrought many miracles and said, "Go your way and tell John what things ye have seen and heard," and then He added the word about not being offended (Luke vii, 20-23). At one time Jesus said to the Jews. "If I do not the works of my Father believe Me notabut if I do, though re believe not Me, believe the works that ye may know and balieve that the Father is in Me and I in Him" (John x. 37, 38).
