EVERYTHING OPEN AT SHADYSIDE PARK

Many Gambling Devices Wide Open When Reporter Paid Visit Last Sunday

NO POLICEMEN ARE TO BE

Young Girls and Boys Have Access to Every Place-The Public Aroused

Shadyside, a resort at the end of the Westport car line billed as "the Dreamland of the South," is a "dreamland" in all that that name implies.

The resort was just opened a few week ago, and conditions thereabouts are such that no self-respecting man would take his wife or daughter. Beer and whiskey are the resort he sees various gambling devices operated by white men.

A representative of the Afro-American Ledger went out to the place last Sunday to see how things are done on the 'shadyside' of life. Leaving the car he passed through a park run for whites whose names are strangers to polite society. Open gambling was going on, and there was no race line there, white and colored men jostling each other Minister Furniss Trying to Spent Several Hours in City in an endeavor to hand their hard earned money over to the operators of the gambling out-fits. The police were evidently back in the woods taking a nap under the trees because the gamblers ran their business in the open and on the most traveled walk.

CITIZENS AROUSED.

The conditions existing at the resort have aroused much unfavorable comment. Two weeks ago the members of Sharp Street Memorial M. E. Church presented a petition to the Circuit Court of Baltimore county asking that the license for the place be not transferred from man named Golden to Grace A. Kirby, Judge William H. Harlan, after listening to the plea of the petitioners, refused to grant the transfer. Mrs. Kirby is said to be the wife of John A. DISADVANTAGES OF BEING FAT.

"Fat people are not healthy," says Dr. F. M. Pottinger. "They are considered poor risks from the standpoint of longevity, prone to suffer from diseases of the heart, arteries and kidneys. powers of digestion can be made fat by overfeeding, but when this has been done little has been gained." It is better to be ten pounds under than over weight. Persons who live to be old are nearly always lean. The vitality required to circulate the blood and carry on the other processes of nutrition in fifty pounds of superfluous flesh is a serious handicap, not to mention the loss of muscular energy required to carry the superfluous weight.
