

we are on our way to Bespe Woods -
this morning, or standing towards the coast
of Le Dender the country that so long
defend the Bourbon cause in the beginning
of the Revolution we saw the White Church
on every Church. And the Governor came
to tell us that it was general
throughout the country, I never saw men
so delighted and we were so happy
think for that there is now an end to
the French war, and the American rule
also soon terminate, and the world
will enjoy (I sincerely hope) a lasting
Peace, I feel that Providence has pointed
to me every opportunity for helping myself
and it would be my own fault
if I do not make the most of it
