

I shall send Thompson some excellent
Boerdy - by your desire
I am very glad that Helen is
well enough to go on jaunts
I long to hear of your resolves
when you know that I am to go
to America, I hope that Somers
give you a hint to put things on
board the Royal Ark for me
but my friend is very mysterious
the Lecturers are very much out
of humor, they only know their
destination by the word papers and
from the Officers of the company
they should have been written to -
I am laboring hard to pacify them,
