

I continue to be pleased with my
 progress. I have had the commanding
 Officers of Regiments to know with ease
 I can much take with liberal Treatment of
 the 25 Regt - our good health is
 wonderful our sick list to day is
 only twelve and not one confined to
 bed, and our Detachment nine hundred and
 thirty seven men - I wish I knew how you
 your were going on - on my arrival
 at Bermuda, I shall hope to find a
 letter - the Pickets make good progress
 and I know that you will not neglect
 to write - I find by the orders given to
 the General that we are to be joined
 by some Troops from Schellter at Bermuda,
 I am very desirous to know what
 engagements we make for since
 they surely did not intend that I should
 carry the expedition to its destruction
 and then return that would be
 rather unusual - but if they intended
 I should remain that should not
 be disapproved my self
