

I have received many of your letters (34)
the last the 31st of Oct - every day I
am more desirous to be with you
and if I see that there is not a
prospect of Peace in the Spring I will
endeavour to get Home I don't like the
war, we should have offered the same
the same terms at Hamburgh that were
proposed before the Peace with France
they would have been accepted and now
they will not accept even those, unless
we are better success - our failure at
New Orleans will give them great spirits,
I have rec^d. the note you sent me
it is very good as a point we lost
I should like some or two or three
you are kind and good to think
of me. I am the best of
Yours
