

without it, I have sent in every
direction to locate the Disturber, and
to purchase wherever it can be found,
Sed Keith told me that he would
lead me into a scrape, never was
there so thoughtless a Man, but I
could not prevent our present situation
I warned him frequently that we
should be ~~careless~~ short, for this is the
third time that we have been close
over, but I could not doubt the
statement that was made to me
I shall be able to estimate myself
but I cannot more till I receive
a supply, I think Codrington is in
fault as well as Sir A. - but they
prevent and the service suffers.
