My dearest Clementina

I have written to you very
frequently lately to tell you that the
moment I can procure some self portraits
I will this for myself - It is truly
distressing to be kept here now that
the war is at an end - much blame
sticks some where - so you see
now a Lady I have written you a
long letter on the subject and told
you what I think ~~the~~ the response
side ought to have been increased
to one hundred and this substitution
one - to two hundred if they
pleased but no title - even though
else is sold, for a Lambert
your name in the presence he
is not adequate with honor, but
I think your - good rest of them
Love is a proper Officer -
