File No. 1 Continued. CORRESPONDENCE. clusions you reached. I think it is very probable that the work under the street will not be done before the first of July next, and therefore that no ap-Plication will have to be made until that time for the issue of the permit; but, when application is made for it I will bring to the attention of the Mayor and the City Engineer the contents of your letter. As I stated in my letter of the 16th inst., to you, the necessity 35 for troubling you at the present time grew out of the fact that the Company was very anxious to make its contracts forthwith for the doing of the work, and did not wish to make them until it was sure that the opinion which I had given to it would be concurred in by you. Yours very truly, (Signed) Bernard Carter.
