Dear Sir:-

1624

At a meeting of the Board of Estimates held this day, the enclosed communication from Mr. Wm. J. Norton of the Federal Electric Company, was presented by Mr. Preston, Inspector of Buildings, and it was ordered that the same be respectfully referred to you for your opinion.

The Board would also like to know its rights to grant such privileges in view of the existing ordinances prohibiting signs more than two feet beyond the building line.

Very truly yours,

(Signed) George R. Heffner,

Secretary.
