File No. 2587 Continued.

OPINION.

to the flow of gas to the gas lamps mentioned by you since January lat last.

Truly yours,
(Signed) W. Cabell Bruce.

City Solicitor.

F11e No. 2612

CORRESPONDENCE.

RESCRICAL COMMISSION OF BALTIMORE CITY, OFFICE OF CHIEF ENGINEER.

Baltimore, Pebruary 25th, 1905.

Hon. W. Cabell Bruce,
City Solicitor.

Dear Sir:-

From the Consolidated Gas, Electric Light & Power Company, formed by the consolidation of the Consolidated Gas Company and the United Electric Light & Power Company. These applications cover work former-lyapplied for by the United Electric Light & Power Company, under the lease with that Company. As we have no lease with the new concern we have refused the applications, pending the assignment of the lease.

Will you kindly advise me what steps are necessary in this connection and whether I am correct in refusing the applications until the assignment has been made?

Respectfully yours,

(Signed) Chas. E. Phelps, Jr.,

Chief Engineer.
