Pile No. 2630 Continues.

CORRESPONDENCE.

North avenue, and in rear of the residence is a stable in which is kept several horses and vehicles. Special rates are also prescribed by the ordinance for horses and vehicles (not work horses) of \$1.50 each. Mr. Peddicord believes that under meter his water will cost much less, and has therefore made application for a metered supply for his residence and stable.

Kindly advise me at your earliest convenience if the department has the authority to grant this application, and (2), is so, whether it is optional with the department to grant or refuse such an application; also (3) please advise me if it is optional with the department to grant other applications for meters for private residences, which have no stables on the lot and where the water supplied is used entirely for domestic purposes.

Yours truly,

(Signed) Alfred M. Quick.

President Water Board.

OPINION.

LAW DEPARTMENT.

Baltimore, March 6, 1905.

Alfred M. Quick.Boq.

President of the Water Board.

Dear Sir:-

Replying to your favor of the 28th ult. with reference to the application of Isaac Peddicord for a metered supply of water for his residence and stable, I enclose herewith a report to me dated the 6th inst. from Mr. Sylvan Hayes Lauchheimer, Assistant City Solicitor, I concur with the conclusions reached by Mr. Lauchheimer,

Truly yours,

(Signed) W. Cabell Bruce.
City colleitor.
