Baltimore, October 26, 1905.

James Bosley, Esq., M. D.

Secretary of the Board of Public Safety.

Dear Sir:-

I am in receipt of your letter of the 25th inst.

I do not think that the Inspector of Buildings requires any additional ordinance to enable him to eject a tenant from a building that he is about to demolish in the exercise of the police powers of the City. He is empowered now to use any reasonable degree of force that may be necessary to remove agtement from such a building.

Truly yours,

(Signed) W. Cabell Bruce, City Solicitor.
